

## TRIAL OF TAYLOR AROUSSES INTEREST

Case Before Mock Tribunal  
Ablly Handled.

### STUDENTS GET NEW FACTS

Ex-Governor's Secretary and Caleb  
Powers in Communication With  
the Des Moines Court.

DES MOINES, Feb. 25.—The defense has introduced testimony in the mock trial of ex-Gov. W. S. Taylor of Kentucky, charged with the murder of Governor Goebel.

The plan of defense was personally directed by Caleb Powers, by correspondence, and Mr. Powers has also sent to a large number of influential men and newspapers copies of his speech at his own trial and of a magazine article which he has written, giving his version of the incidents surrounding the assassination.

Prosecuting attorneys interested in the original cases in Kentucky are manifesting almost as much interest as the defense.

Ex-Governor Taylor's private secretary is in constant communication with the student lawyers who are engaged in the trial. Every detail of the historic tragedy was narrated again, substantially as it was told at the Powers trial, students assuming the names and impersonating the witnesses who were examined in the original trial.

Some new details were added, which will be employed in case Powers or Taylor get new trials. Howard and Cullton, on further examination, sought to connect Taylor more directly with the meetings at which the conspiracy was hatched.

The opening argument of the defense was to the effect that Cullton had been systematically tortured into manufacturing his testimony to the State.

### ALEXANDRIA NEWS NOTES.

ALEXANDRIA, Va., Feb. 25.—Mary Butler, a negress, was before Justice Caton this morning charged with the larceny of goods from Mrs. Thompson. The girl was arrested by Policeman Roberts. Justice Caton after hearing the evidence fined Mary \$10.

### CLEANING UP KING STREET.

Workmen, with picks, shovels, and carts, are busy today removing the snow from King street. Some of it is carried to the outskirts of the city and dumped while some of it is thrown into the sewer. The snow from the sidewalks and from the railroad track has all been dumped in the street beside the track thus making a large pile.

### MR. MURST'S FUNERAL.

The funeral of the late Mordecai Hurst will take place from Demaine's undertaking rooms tomorrow evening at 3 o'clock. An inquest over the remains of Hurst, who was run over and killed by a Southern engine, was held yesterday evening, Justice Pelton acting in the absence of Coroner Purvis.

The jury after hearing the evidence brought in a verdict that Hurst met his death by accident and exonerated the railway company from all blame.

### ACCUSED OF BEING DISORDERLY.

Hattie Conway, a negress, and Lewis Carrington, a negro, were fined \$5 each in the police court this morning for disorderly conduct.

### SMITH-WOLFE WEDDING.

Mary E. Wolfe, of this city, and Elmore G. Smith, of Perryville, were married by the Rev. J. P. Stump at the parsonage of the Methodist Episcopal Church South last Tuesday evening.

### ENTWISLE-SIMMONS.

James Forest Entwistle and Elizabeth Simmons, of Washington, were married at the parsonage of the Methodist Episcopal Church South last Wednesday, the Rev. J. P. Stump officiating. The groom is the grandson of the late Dr. James Entwistle, who kept a drug store in this city for many years.

### ON STATUTORY GROUNDS.

Anna Maria Blouse Curty, through Machen and Moncure, attorneys, has filed a suit in the corporation court for divorce from Julius Curty on statutory grounds.

### DEATH OF MR. ROBERTS.

Alfred H. Roberts, who resides in Fairfax county, just south of this city, died at his home there yesterday afternoon. Mr. Roberts was the son of the late Robert F. Roberts, and was favorably known by a large number of Alexandrians. He was fifty-eight years of age.

### JUST THE BOOK WANTED.

"This book," began the agent, who had pushed his way into the office. "Don't want it?" snapped the busy merchant. "I wish I knew some sure way to keep you fellows out of here." "This book tells you. Buy one," Philadelphia Ledger.

### CHEATED FOR YEARS

Prejudice Will Cheat Us Often if We Let It.

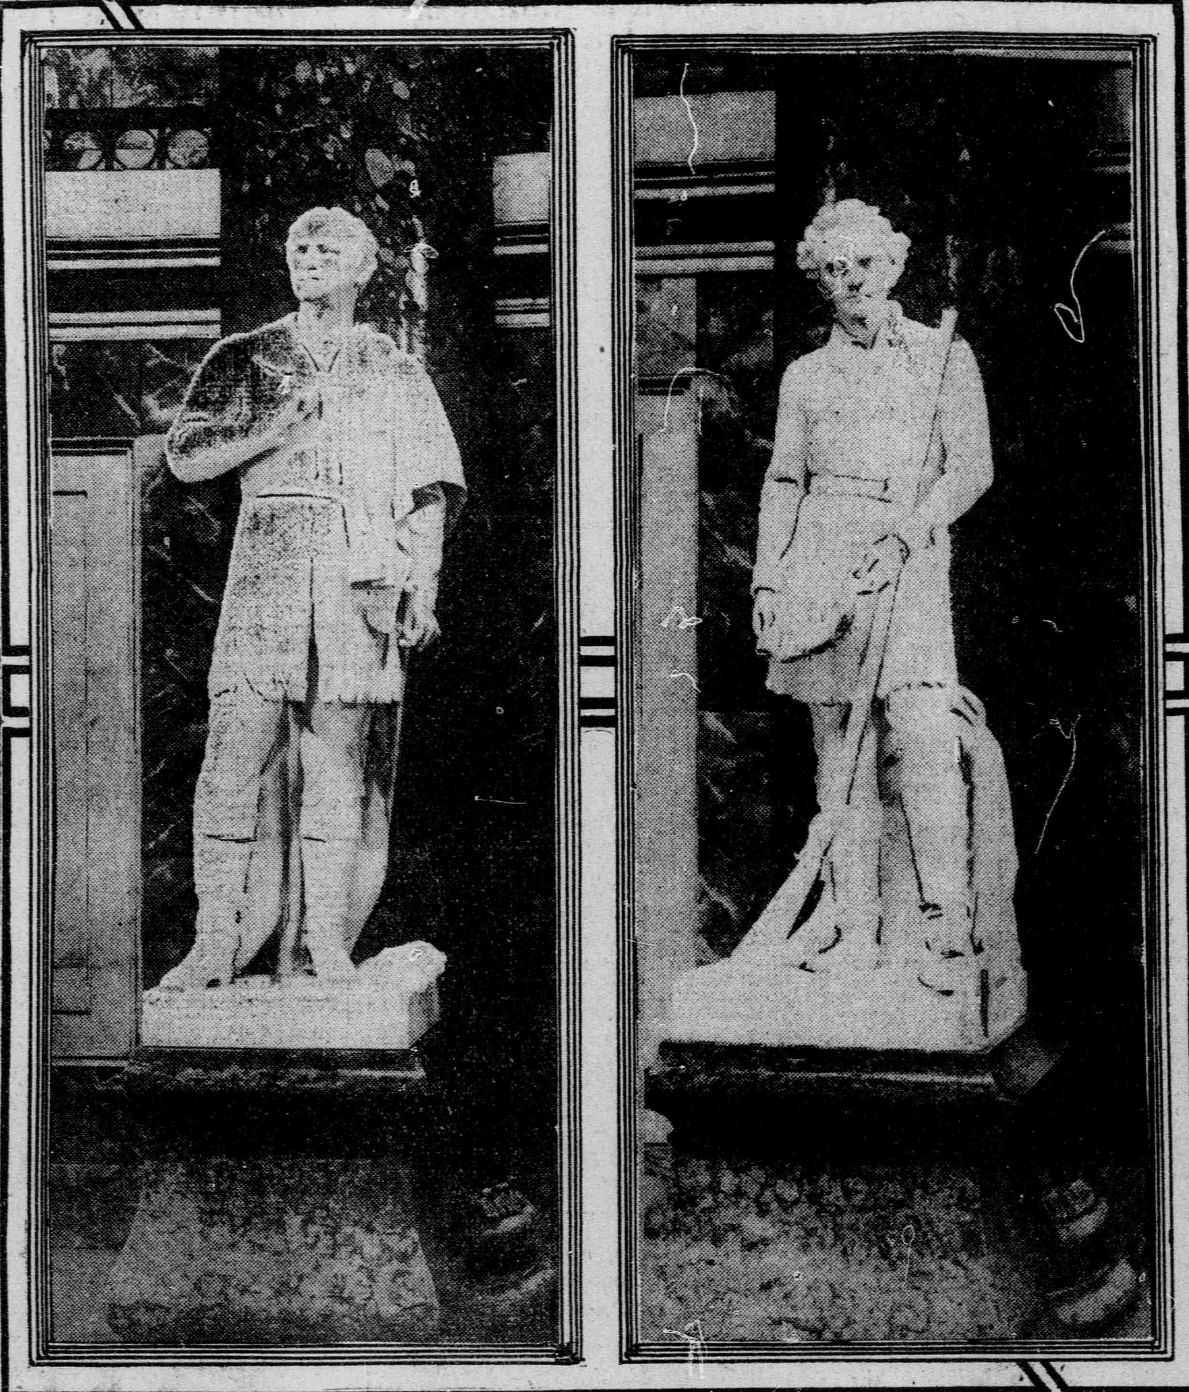

You will be astonished to find how largely you are influenced in every way by unreasoning prejudice. In many cases you will also find that the prejudice has swindled you, or rather, made you swindle yourself. A case in illustration: "I have been a constant user of Grape-Nuts for nearly three years," says a correspondent, "and I am happy to say that I am well pleased with the result of the experiment, for such it has been. Seeing your advertisement in almost all of the periodicals, I for a long time looked upon it as a hoax. But after years of suffering with gasous and bitter eructations from my stomach, together with more or less loss of appetite and flesh, I concluded to try Grape-Nuts food for a little time and note the result.

"I found it delicious, and it was not long till I began to experience the beneficial effects. My stomach resumed its normal state, the eructations and bitterness both ceased and I have gained all my lost weight back.

"I am so well satisfied with the result that so long as I may live and retain my reason Grape-Nuts shall constitute quite a portion of my daily food. Name given by Postum Co., Battle Creek, Mich.

There's a reason. Look in each pkg. for the famous little book "The Road to Wellville."

## MEN WHOM TEXAS VENERATES

SAM HOUSTON.

STEPHEN D. AUSTIN.

Founder and Liberator of Lone Star State, Whose Statues Were Accepted by Congress Today for Statuary Hall.

## Houston and Austin In Nation's Valhalla

The acceptance of the statues of Sam Houston and Stephen D. Austin, by the Congress of the United States, took place at 3 o'clock this afternoon. The principal speaker was Representative Stephens of Texas, who paid eloquent tribute to the memories of the men who had made Texas great.

The other speakers were Representatives Richardson of Alabama, Burgess, Clark of Wisconsin, Stephens, Fields, Gibson of Tennessee, Pinckney, Wallace of Arkansas, Gillespie and Slawson. The statues, the work of Elizabeth Ney, stand in the rotunda of the Capitol. They are striking exponents of the force and unity of the Texan frontiersmen, who wrested the State from the wilderness.

Mr. Cooper's Address.

Mr. Cooper said in part: "Rich in men of the highest type, bewildered by an imposing array of sons worthy of every honor, our State has found it no easy task to make the selection imposed by the act of Congress, but the task has been simplified by the reflection that the fame of those not thus selected is in no degree dependent upon memorials like these, but is secured in the records of history and in the memories of their admiring fellow-citizens.

"Stephen F. Austin and Sam Houston, the founder and the preserver! Each the complement of the other! Without Austin to build states, no Houston would be needed to liberate them from oppression or to defend them from aggression; without the sheltering and conserving genius of a Houston, vain would be the work of those who lay the foundations of states and the souls and savagery of the desert. Happy and wise then was the choice that linked these two great men in a common memorial, as the two great deeds were associated in working out, in different ways, a common destiny for one of the greatest of the American commonwealths.

### Gained Grateful Remembrance.

"The two distinguished men whose statues have been presented here were born in the same State (Virginia) in the same year, 1793. Though thus of the same age, yet Austin's connection with Texas history began many years before the arrival of his great colleague, and death removed him from the scene of their common labors more than a quarter of a century before the career of Houston was ended. Yet, in the forty years which no date proved of great value to him, when, years afterward, upon the plains of Texas, with an army far larger in numbers, discipline and equipment, he confronted and afterward crushed the Mexican army under Santa Anna, the vaunted 'Napoleon of the West.'

"Austin and Houston! The founder and liberator! Fellow-citizens of the United States, admit these statues to their rightful place in this Hall of Fame.

### "Reincarnation."

Albert S. Dulin will deliver a lecture at Raucher's Hall, Sunday evening at 8 o'clock, on the Vedanta Philosophy. The subject of the discourse will be "Reincarnation." Or, Evolution and Involution. This lecture is a continuation of last Sunday's, the subject being one of such magnitude that it required two evenings to properly present it.

## How the Stomach and Kidneys Depend on the Inside Nerves

Texas offers them as her proud contribution to this impressive symposium of American greatness. As the countless hosts of visitors from every land pass through that hall, these memorials will impress upon them the fact that, despite all our commercialism and love of wealth and show, the American people

still measure men by their merits, and that they honor, without respect to birth or class, those who have served their country well.

"And if the evil day should ever come—in some far-off century, if at all, we hope—when our ideals shall have changed and our free republic shall be replaced by the rule of a man or class, may these statues still look down from their pedestals into the upturned faces below and tell in speechless eloquence of that happy long ago when this circle of heroes and statesmen and sages lived upon earth and each gave his life's best work to found and perpetuate a government which, ruled by right and justice, reflected the glory of God and promoted the good of man."

Every day medical science becomes more complicated. It explains, too, why ordinary medical treatments are wrong—why medicine so frequently fails.

For, despite the discoveries of science, the common remedies of the day are designed to treat the organ, not the nerve—the symptom instead of the cause.

Don't you, though you may not know medicine at all, see that this is wrong? That it is mere patchwork? That while the

whereupon the student shot and killed him and disappeared in the crowd.

### Railway Strike Over.

WARSAW, Feb. 25.—The strike on the Warsaw and Vienna railway has ended, the men's demands having been granted. The sanction of the minister of finance has not been received, but the strike leaders have ordered the men to return to work in the meantime. The other Polish railways are still tied up.

The manager of the Libau and Romyany Railway has announced that the Czar has ordered that hereafter the men shall work only nine hours a day, and that they be allowed to elect delegates to report their grievances. An increase in wages is also promised. After the announcement was made the men returned to work.

### Industry Suspended.

ST. PETERSBURG, Feb. 25.—The workmen here are still uncompromising in their political demands. They declare that when they returned to work the managers of the various factories refused to readmit several of the former employees on the ground that they were leaders in the political movement.

As a result, the industrial town of Schussenburg, near the German border, and the Nevski, Obukhoff and Putiloff iron works are wholly closed. The employers today asked for troops to guard the works, their request being similar to the one they made before January 22, the day of the massacre here.

Governor General Trepoft immediately granted the request and the works are now under close guard.

MOSCOW, Feb. 25.—Leonide Andreeff, the author, Chirkoff, Skitalez and fourteen other literary men were arrested today at Andreeff's house. Andreeff, who is a novelist, is known as "Little Gorki."

### Japan's Fleet Moves Against Vladivostok

S. PETERSBURG, Feb. 25.—Kuropatkin telegraphs that twenty Japanese torpedo boats and one warship have been sighted off Vladivostok.

A telegram from Huanshan says that the gradual forward march of the enemy continues.

### Russian Troops in Korea.

TOKYO, Feb. 25.—Large numbers of Russian troops are reported in the extreme northeastern part of Korea, on both sides of the Tumen river, apparently placed at strategic points. The line of communication between Kyongsong and Vladivostok is strongly guarded. Russian scouts have again come south as far as the neighborhood of Songlin.

Field Marshal Oyama reports that only skirmishes have taken place since his last report. One of these was noteworthy. Russian scouts, disguised as Chinamen, came within 500 yards of the Japanese position at Tutulise. The Japanese fired, and the Russians retired. Among the Russians left on the field was an officer.

It is reported that the force of Russian troops which was lately threatening the railway on the left of the Japanese position is now in neutral territory west of the Lia river.

A body of Russians was recently conveying 200 tons of fodder which they had requisitioned in neutral territory south of Samtsum when they were attacked by bandits, who carried off the whole of the provender.

In compliance with the protest of M. Lassar, the Russian minister to China, the Peking authorities have sent orders to General Tsang to suppress the bandits, on the ground that they are operating with the Japanese.

### Battle Imminent.

LONDON, Feb. 25.—Telegrams from St. Petersburg and Mukden are regarded as indicating that another battle is imminent. The Japanese are closing in on the Russian left, operating in the

mountains, where the earliness of spring makes a forward movement possible. They have occupied Tsinhochen, about fifty-five miles southeast of Mukden. As this place is forty miles east of General Kuroki's center it is assumed that a new army, probably under command of General Kawamura, is operating from Saliansse.

It is reported from St. Petersburg that General Kuropatkin has ordered the Red Cross depots at Mukden, Harbin, Tieling and Irkutsk to prepare to receive from 50,000 to 100,000 wounded.

**Capture German Collier Bound for Vladivostok**

TOKYO, Feb. 25.—The Japanese have captured the German collier Severus, bound for Vladivostok.

**To Try Battery Officers Who Fired Upon the Czar**

ST. PETERSBURG, Feb. 25.—An order of the day issued by the Grand Duke Vladimir, commanding the St. Petersburg military division, announced that the officers of the battery from which a charge of case shot was fired on the occasion of the blessing of the waters of

the Neva on January 19, are to be tried by court-martial.

The officers are Captain Daydoff, Captain Kargert and Lieutenants Count Koutaissoff, Perebinozoff and Miller.

**Russian Stundist Sect Will Come to Canada**

BERLIN, Feb. 25.—The Berliner Zeitung reports that 200,000 Russian Stundists are preparing to emigrate to Canada, following the example of other Russian sects.

The Stundists are Russian Christians who have separated from the orthodox church.

The main headquarters of the Stundists is in the Russian province of Khereson.

**MORGAN WASHES HANDS OF EVERYTHING PANAMAN**

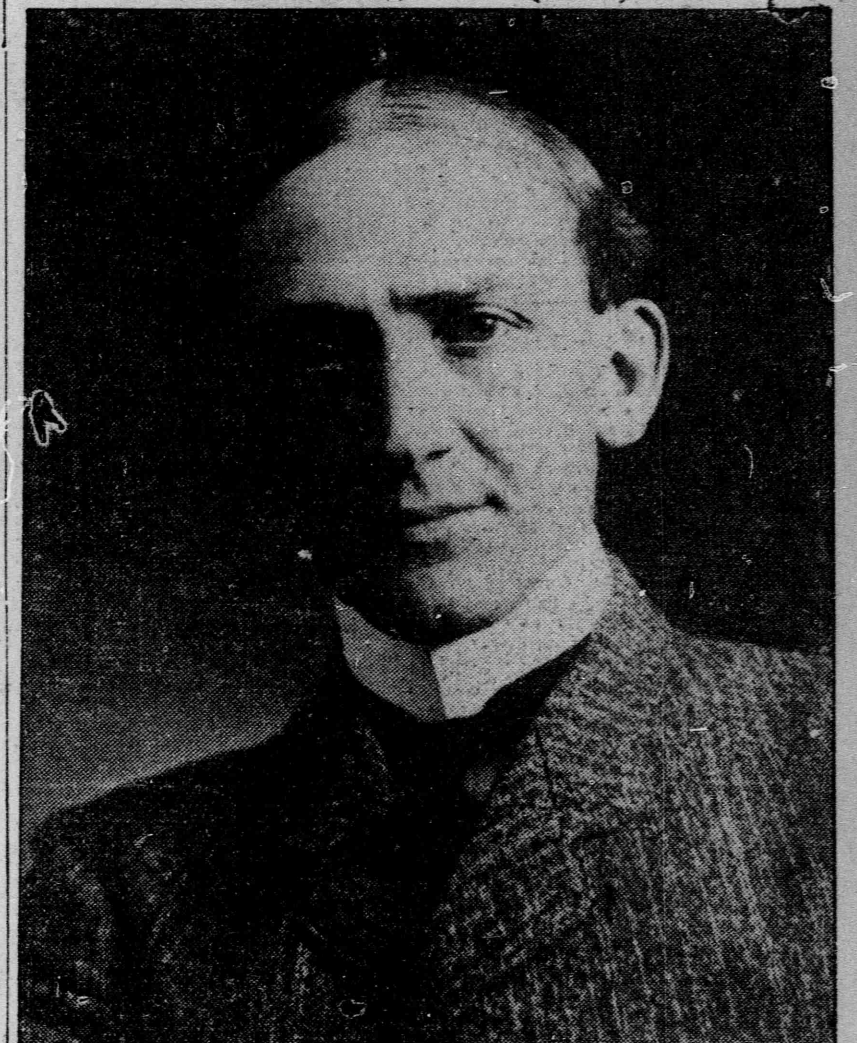

Senator Morgan of Alabama today declined to serve as one of the conferees on the part of the Senate on the Panama civil government bill—known in the Senate as the Kittredge bill and in the House as the Mann bill.

The Chair thereupon, on suggestion of Mr. Kittredge, in charge of the bill, named Kittredge, Millard, and German.

## Catarrh, Foul Breath

If You Continually K'hawk and Spit and There is  
Constant Dripping From the Nose Into the  
Throat, if You Have Foul, Sickening  
Breath, That is Catarrh.

Large Trial Package Free—Quickly Cured

Discoverer of the Now World-Famous Gauss' Combined Treatment  
That Has Probably Effected More Cures and Relieved More  
Suffering Than All Other Remedies Combined.

Is your breath foul? Is your voice husky? Is your nose stopped? Do you snore at night? Do you sneeze a great deal? Do you have frequent pains in the forehead? Do you have pains across the eyes? Are you losing your sense of smell? Is there a dropping in the throat? Are you losing your sense of taste? Are you gradually getting deaf? Do you hear buzzing sounds? Do you have ringing in the ears? Do you suffer with nausea of the stomach? Is there a constant bad taste in the mouth? Do you have a hacking cough? Do you cough at night? Do you take cold easily? If so, you have catarrh.

Catarrh is not only dangerous in this way, but it causes ulcerations, death and decay of bones, loss of thinking and reasoning power, kills ambition and energy, often causes loss of appetite, indigestion, dyspepsia, raw throat, and reaches to general debility, idiosyncrasy, and insanity. It needs attention at once. Cure it with Gauss' Catarrh Cure. It is a quick, radical, permanent cure, because it rids the system of the poison germs that cause catarrh.

In order to prove to all who are suffering from this dangerous and loathsome disease that Gauss' Catarrh Cure will actually cure any case of catarrh quickly, I will send a trial package by mail free of all cost. Send us your name and address today and the treatment will be sent you by return mail. Try it. It will positively cure so that you will be welcomed instead of shunned by our friends. Write today; you may forget it tomorrow. C. E. GAUSS, 3406 Main St., Marshall, Mich.

## Dr. Shoop's Restorative

Any sick one who has not tried my remedy, Dr. Shoop's Restorative, may have a Full Dollar's Worth Free. I ask no deposit, no reference, no security. There is nothing to pay, either now or later. I will send you an order on your druggist which he will accept in full payment for a regular, standard size Dollar bottle. And he will send the bill to me.

C. I. Shoop, M. D.

suffering organ is enjoying its temporary relief, the nerve that is really sick may be getting worse and worse? Does this not explain to you why relapse so frequently follows a supposed cure? Does this not account for the uncertainties of medicine?

More than thirty years ago this thought came to me:

"If life and health depend upon perfect heart action, upon proper stomach digestion, upon correct kidney filtering, why does not

the stomach, the kidneys and the liver and all of the vital functions. You cannot control these nerves. By no supreme effort of mind can you make your heart stop or start—nor can you even make it vary by a single beat a minute. And so with the stomach and the liver and the kidneys and the bowels—they are automatic—they do their work at a certain set speed whether you are awake or asleep—whether you want them to or not.

It is on these inside nerves that life and health depend. So long as these nerves perform their proper duties we are well and strong. When they fail, we know it by the inevitable symptoms—stomach, heart, liver, kidney troubles. And these troubles have no other origin, ever, than in these same nerves. For the stomach, the heart, the liver, the kidneys, have no power of their own—no self-control. They owe their every impulse to the inside nerves. The nerves are the masters. The organs their slaves.

These automatic nerves are sometimes called the "sympathetic" nerves. This name is given them because of the close bond of sympathy which exists between all branches.

This explains why stomach trouble develops into heart trouble—why indigestion brings on nervousness—why diseases become
